TRUSTEES' REPORT
FOR THE YEAR ENDED 31 DECEMBER 2012

The Trustees (who are also directors of the charity for the purposes of the Companies Act) present their annual report together with the audited financial statements of Raspberry Pi Foundation (the company) for the year ended 31 December 2012. The Trustees confirm that the annual report and financial statements of the company comply with the current statutory requirements, the requirements of the company's governing document and the provisions of the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" issued in March 2005.

STRUCTURE, GOVERNANCE AND MANAGEMENT

a. CONSTITUTION

The company is registered as a charitable company limited by guarantee and was set up, and is governed by, its Memorandum and Articles of Association dated 25 November 2008. It is recognised as a charity with the Charity Commission, under charity number 1129409.

b. METHOD OF APPOINTMENT OR ELECTION OF TRUSTEES

The management of the charity is the responsibility of the Trustees who are elected and co-opted under the terms of the Memorandum and Articles of Association. The Board of Trustees meets regularly in order to discuss the operations of the charity.

c. POLICIES ADOPTED FOR THE INDUCTION AND TRAINING OF TRUSTEES

New Trustees are briefed on their legal obligations under Charity and Company Law, the content of the Memorandum and Articles of Association, the Trustee decision-making processes, and recent financial performance of the charity, code of conduct for Trustees and the confidentiality agreement signed by Trustees. Trustees are encouraged to attend appropriate external training events where these will facilitate the undertaking of their role, and Trustees' meetings whenever possible in order to maintain their awareness of the charity's activities.

d. ORGANISATIONAL STRUCTURE AND DECISION MAKING

The Trustees are responsible for establishing the overall policy and direction to enable the charity to meet its objectives. Due to the current size of the charity, all management decisions are taken by the Trustees as a whole.

e. RISK MANAGEMENT

The Trustees are in the process of establishing a framework for the identification and control of the major risks to which the charity is exposed and are satisfied that adequate controls are in place to mitigate such risks. The Trustees have a risk management strategy which comprises:

- an annual review of the risks the charity might face;
- the establishment of systems and procedures to mitigate those risks identified in the plan; and
- the implementation of procedures designed to minimise any potential impact on the charity should those risks materialise.

OBJECTIVES AND ACTIVITIES

a. POLICIES AND OBJECTIVES

The principal object of the charity is to further the advancement of education of adults and children, particularly in the field of computers, computer science and related subjects.

b. STRATEGIES FOR ACHIEVING OBJECTIVES

The Trustees intend to further develop their goal of 'getting Pis to kids' by providing secondary school pupils across the UK with access to Pi units and with the opportunity to learn to code. The high level objectives within this goal include:

- To inspire a generation of children to learn how to code;
- Providing easier access to coding lessons for thousands of British school children;
- To increase the public profile of learning to code so that the challenges and opportunities around it become part of a national debate for policymakers and media.

As a first step in establishing a framework to achieve these goals, the charity aims to outreach to five different computer science training and teaching organisations who offer courses and clubs around the country. Each will be provided with a supply of devices to give to children who show keen interest and/or aptitude in courses and would likely benefit. Each computer science training and teaching organisation will receive up to 1,000 devices in the first tranche in January 2013, with further tranches to be delivered in due course.

In addition to the above, every secondary school in the UK that offers a computer science General Certificate of Secondary Education (GCSE) will be entitled to at least one device.

The charity will manage feedback from all of the above during the year in order to share experiences and consider feedback in order that any lessons gauged can be fed back into the educational process.

The Trustees are also investigating possible international dimensions to advancement of education including work in Kenya, Brazil and India.

ACHIEVEMENTS AND PERFORMANCE

a. GOING CONCERN

After making appropriate enquiries, the Trustees have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements. Further details regarding the adoption of the going concern basis can be found in the Accounting Policies.

b. REVIEW OF ACTIVITIES

The Trustees consider that the charity has had a very successful year and has rapidly increased its activities during 2012. Interest in the Raspberry Pi units has exceeded expectation with the device receiving widespread media coverage during the year. As a result of the unexpected demand for the Raspberry Pi unit, the Trustees have established a trading subsidiary to deal with non-educational customers and have entered into manufacturing and licensing agreements in order to expand the manufacturing and distribution of Raspberry Pi units.

FINANCIAL REVIEW

a. FINANCIAL PERFORMANCE

Overall the charity had net incoming resources for the year of £744,440 (2011: £3,024), including a £125,931 surplus on unrestricted funds (2011: £3,024). The charity received a significant restricted grant during the year and in conjunction with the donor, the Trustees are currently engaged in utilising this funding to further their educational brief.

b. RESERVES POLICY

The Trustees have examined the requirements for free reserves i.e. those unrestricted funds not invested in tangible fixed assets, designated for specific purposes or otherwise committed. The Trustees consider that given the nature of the organisation's work, the charity should aim to maintain unrestricted cash reserves sufficient to cover 6 months of operation without relying on additional income. This is intended as a contingency to cover operational expenditure in the event of trading income ceasing. In addition, the Trustees are of the opinion that this provides:

- sufficient flexibility to cover temporary shortfalls in incoming resources due to timing differences in income flows;
- adequate working capital to cover core costs; and
- an allowance to enable the organisation to cope and respond to unforeseen emergencies whilst specific action plans are implemented.

The balance sheet shows total funds of £748,683 which comprises a grant subject to donor imposed conditions and general funds. General funds of the charity at 31 December 2012 were £130,174 which, based on 2012 levels of activity are currently short of their desired level as set out in the reserves policy above.

PLANS FOR THE FUTURE

a. FUTURE DEVELOPMENTS

The charity aims to expand the distribution of Raspberry Pi units further so that as many adults and children as possible can increase their learning of computers, computer science and related subjects. There are plans to complete the development and manufacture of the next generation of Raspberry Pi units which are likely to feature a built-in camera function.

Initially, Raspberry Pi units were being provided purely to educational establishments. However, due to the popularity of the Raspberry Pi units within the global information technology community, units are now eligible for purchase by commercial customers and individuals worldwide through licence agreements. As a result of this development, the Trustees established Raspberry Pi (Trading) Ltd, a wholly owned trading subsidiary, in December 2012. Any profits generated by the company will be payable to Raspberry Pi Foundation under Gift Aid as a donation thereby allowing the charity to further its charitable aims.

MEMBERS' LIABILITY

The Members of the company guarantee to contribute an amount not exceeding £1 to the assets of the charity in the event of winding up.

PUBLIC BENEFIT

Raspberry Pi Foundation is a registered charity whose charitable purposes defined within the Charities Act 2011 is to advance education for the public benefit in the field of computers, computer science and related subjects. The Trustees confirm that they have complied with the duty in Section 17 of the Charities Act 2011 to have due regard to the Charity Commission's general guidance on public benefit, and that the purpose and aims of Raspberry Pi Foundation are for the greater public good.

The number of students enrolling on computer science and programming courses at higher education establishments throughout the country is falling. The potentially inhibitive costs to students and academic institutions of obtaining suitable IT equipment is cited as one of the causes. Raspberry Pi Foundation was set up with the aim of making affordable IT equipment accessible to schools and higher education establishments, and in doing so, encourage more interest and demand in computer science and programming courses.

TRUSTEES' RESPONSIBILITIES STATEMENT

The Trustees (who are also directors of Raspberry Pi Foundation for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the Trustees to prepare financial statements for each financial year. Under company law the Trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgments and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable company will continue in operation.

The Trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charitable company's transactions and disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Each of the persons who are Trustees at the time when this Trustees' Report is approved has confirmed that:

- so far as that Trustee is aware, there is no relevant audit information of which the charitable company's auditors are unaware, and
- that Trustee has taken all the steps that ought to have been taken as a Trustee in order to be aware of any information needed by the charitable company's auditors in connection with preparing their report and to establish that the charitable company's auditors are aware of that information.

If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.
