TRUSTEES' REPORT FOR THE YEAR ENDED 31 DECEMBER 2013

The Trustees (who are also directors of the charity for the purposes of the Companies Act) present their annual report together with the financial statements of Raspberry Pi Foundation (the company and the group) for the year ended 31 December 2013. The Trustees confirm that the annual report and financial statements of the company comply with the current statutory requirements, the requirements of the company's governing document and the provisions of the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" issued in March 2005.

STRUCTURE, GOVERNANCE AND MANAGEMENT

a. CONSTITUTION

The company and the group is registered as a charitable company limited by guarantee and was set up, and is governed by, its Memorandum and Articles of Association dated 25 November 2008. It is recognised as a charity with the Charity Commission, under charity number 1129409.

b. METHOD OF APPOINTMENT OR ELECTION OF TRUSTEES

The management of the charity is the responsibility of the Trustees who are elected and co-opted under the terms of the Memorandum and Articles of Association. The Board of Trustees meets regularly in order to discuss the operations of the charity.

c. POLICIES ADOPTED FOR THE INDUCTION AND TRAINING OF TRUSTEES

New Trustees are briefed on their legal obligations under Charity and Company Law, the content of the Memorandum and Articles of Association, the Trustee decision-making processes, and recent financial performance of the charity. Trustees are encouraged to attend appropriate external training events where these will facilitate the undertaking of their role, and Trustees' meetings whenever possible in order to maintain their awareness of the charity's activities.

d. ORGANISATIONAL STRUCTURE AND DECISION MAKING

The Trustees are responsible for establishing the overall policy and direction to enable the charity to meet its objectives. The key management decisions are taken by the Trustees as a whole although the Trustees have delegated certain types of management decisions to the company's executive staff.

e. RISK MANAGEMENT

The Trustees have established a framework for the identification and control of the major risks to which the charity is exposed and are satisfied that adequate controls are in place to mitigate such risks. The Trustees have a risk management strategy which comprises:

- a periodic review of the risks the charity might face;
- the establishment of systems and procedures to mitigate those risks identified in the plan; and
- the implementation of procedures designed to minimise any potential impact on the charity should those risks materialise.

TRUSTEES' REPORT (continued) FOR THE YEAR ENDED 31 DECEMBER 2013

OBJECTIVES AND ACTIVITIES

a. POLICIES AND OBJECTIVES

The principal object of the charity is to further the advancement of education of adults and children, particularly in the field of computers, computer science and related subjects.

b. STRATEGIES FOR ACHIEVING OBJECTIVES

At the start of 2013 the Trustees set the following goals in line with the charitable objectives of the Foundation.

The Trustees intend to further develop their goal of 'getting Pis to kids' by providing school pupils across the UK with access to Pi units and with the opportunity to learn to code. The high level objectives within this goal include:

- to inspire a generation of children to learn how to code;
- providing easier access to coding lessons for thousands of British school children; and
- to increase the public profile of learning to code so that the challenges and opportunities around it become part of a national debate for policymakers and media.

As a first step in establishing a framework to achieve these goals, the charity partnered with five different computer science training and teaching organisations who offer courses and clubs around the country. Each was provided with a minimum of 1,000 Raspberry Pi devices to give to children who showed keen interest and/or aptitude in computing and would likely benefit from owning a Raspberry Pi.

In addition to the above, every secondary school in the UK that offered a computer science General Certificate of Secondary Education (GSCE) was entitled to at least one device.

The Trustees also investigated possible international dimensions to advancement of education including work in Kenya, Brazil and India.

ACHIEVEMENTS AND PERFORMANCE

a. GOING CONCERN

The Trustees have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements.

a. REVIEW OF ACTIVITIES

The Trustees consider that the charity has had a very successful year and has rapidly increased its activities during 2013. Interest in the Raspberry Pi units has exceeded expectation with the device receiving widespread media coverage during the year.

The Foundation worked closely with six education partner organisations supporting a mix of formal and informal education to provide Raspberry Pi devices and educational resources. During the year over 8,000 Raspberry Pi devices were distributed to schools and young people in the UK through this collaboration. In addition, at the end of 2013 the charity ran a number of competitions for children aged between 5 and 18 and a further 5,000 Raspberry Pi devices were distributed in early 2014 as a consequence.

TRUSTEES' REPORT (continued) FOR THE YEAR ENDED 31 DECEMBER 2013

During 2013 the Foundation worked closely with OCR and Cambridge University Press to develop and launch an online course to support teachers and students studying for OCR GSCE in Computing.

FINANCIAL REVIEW

a. FINANCIAL PERFORMANCE

Overall the group had net incoming resources for the year of $\pounds 2,183,299$ (2012 - $\pounds 744,440$), including a $\pounds 2,437,109$ surplus on unrestricted funds (2012: $\pounds 125,931$).

b. RESERVES POLICY

The Trustees have examined the requirements for free reserves i.e. those unrestricted funds not invested in tangible fixed assets, designated for specific purposes or otherwise committed. The Trustees consider that given the nature of the organisation's work, the charity should aim to maintain unrestricted cash reserves sufficient to cover 12 months of operation without relying on additional income. This is intended as a contingency to cover operational expenditure in the event of trading income of its subsidiary ceasing. In addition, the Trustees are of the opinion that this provides:

- sufficient flexibility to cover temporary shortfalls in incoming resources due to timing differences in income flows;
- adequate working capital to cover core costs; and
- an allowance to enable the organisation to cope and respond to unforeseen emergencies whilst specific action plans are implemented.

The consolidated balance sheet shows total funds of £2,931,982 which includes two grants subject to donor imposed conditions and general funds. General funds of the charity including its subsidiary at 31 December 2013 were £2,567,283.

PLANS FOR THE FUTURE

a. FUTURE DEVELOPMENTS

At the end of 2013 the board of trustees set out its vision and operational goals of the charity for 2014. The 2014 charitable goals in order of emphasis are:

- Support and enhance both informal and formal education of computing particularly (but not exclusively) in the UK;
- Promote and evangelise the creative use of computing in science, mathematics, engineering and creative arts education; and
- Encourage the use of the Raspberry Pi as a low cost productivity and general education compute platform for the developing world.

In pursuit of these goals the charity intends to:

- Hire additional staff to establish a Raspberry Pi education team to develop freely available education resources and increase the number of workshops delivered to young people;
- Launch a new website as a delivery mechanism for the resources created by the educational team;
- Introduce a training scheme for teachers to advance their professional development in computing and support the introduction of the new National Computing curriculum in England;
- Run a number of competitions to encourage young people to develop an interest in computing and technology;

(A Company Limited by Guarantee)

TRUSTEES' REPORT (continued) FOR THE YEAR ENDED 31 DECEMBER 2013

- Work with partner organisations with similar goals to expand the reach of the Foundation's charitable activities; and
- Work with third parties with experience in delivering ICT education platforms in developing countries.
- In the longer term the Foundation intends to build up an Endowment fund to enable it to continue its work indefinitely.

MEMBERS' LIABILITY

The Members of the company guarantee to contribute an amount not exceeding £1 to the assets of the company in the event of winding up.

PUBLIC BENEFIT

Raspberry Pi Foundation is a registered charity whose charitable purposes defined within the Charities Act 2011 are to advance education for the public benefit in the field of computers, computer science and related subjects. The Trustees confirm that they have complied with the duty in Section 17 of the Charities Act 2011 to have due regard to the Charity Commission's general guidance on public benefit, and that the purpose and aims of Raspberry Pi Foundation are for the greater public good.

The number of students enrolling on computer science and programming courses at higher education establishments throughout the country is falling. The potentially prohibitive costs to students and academic institutions of obtaining suitable IT equipment is cited as one of the causes. Raspberry Pi Foundation was set up with the aim of making affordable IT equipment accessible to schools and higher education establishments, and in doing so, encourage more interest and demand in computer science and programming courses.

TRUSTEES' RESPONSIBILITIES STATEMENT

The Trustees (who are also directors of Raspberry Pi Foundation for the purposes of company law) are responsible for preparing the Trustees' Report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the Trustees to prepare financial statements for each financial year. Under company law the Trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and the group and of the incoming resources and application of resources, including the income and expenditure, of the charitable group for that period. In preparing these financial statements, the Trustees are required to:

- select suitable accounting policies and then apply them consistently;
- observe the methods and principles in the Charities SORP;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charitable group will continue in operation.

The Trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charitable company and the group's transactions and disclose with reasonable accuracy at any time the financial position of the charitable group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.
